ELI RODRIGUEZ

FULL-STACK DEVELOPER

Jacksonville, FL | (904) 288-1925 | eli.rodri14@gmail.com

GitHub | LinkedIn | Portfolio Link

PROFESSIONAL SUMMARY

Full-Stack Developer with hands-on experience building responsive, database-driven web applications using JavaScript, React, Node.js, Express, Python, Django REST Framework, and PostgreSQL. Experienced in developing REST APIs, authentication systems, relational database architectures, CRUD workflows, and responsive user interfaces. Graduate of General Assembly's 480+ hour Software Engineering Immersive with a 13+ year professional background in pharmacy operations, bringing strong problem-solving, accuracy, communication, and experience working within complex real-world workflows.

TECHNICAL SKILLS

Languages: JavaScript, Python, HTML5, CSS3
Frontend: React, Vite, Responsive Web Design
Backend: Node.js, Express.js, Django, Django REST Framework, REST APIs
Databases: PostgreSQL, MongoDB, SQL
Authentication & Services: JWT, bcrypt, Cloudinary
Developer Tools: Git, GitHub, ESLint, npm, Postman, VS Code
Core Skills: CRUD Applications, Relational Database Design, API Integration, Authentication & Authorization, Debugging

SELECTED PROJECTS

VinoVault 2.0 - Full-Stack Wine Collection Management Application

React | Python | Django | Django REST Framework | PostgreSQL | JWT | GitHub

- Built a full-stack wine management application that allows authenticated users to discover wines, manage personal cellar collections, and maintain tasting journals.
- Developed a REST API with Django REST Framework and PostgreSQL supporting relational wine, cellar-entry, tasting-note, and user data.
- Implemented JWT authentication, protected React routes, session restoration, and authenticated CRUD workflows across independently running frontend and backend applications.
- Built responsive wine discovery, search and filtering, cellar management, wine-detail, tasting-note, and personalized dashboard interfaces.

You Party - I Pour - Full-Stack Client Booking & Management Application

React | JavaScript | Node.js | Express.js | PostgreSQL | JWT | Cloudinary

- Built a full-stack web application for a mobile bartending business, combining a customer-facing service and booking experience with a protected administrative management system.
- Developed REST API workflows for quote requests, event availability, booking status management, blackout dates, internal notes, confirmation numbers, and email confirmations.
- Implemented JWT-based administrator authentication, scheduling-conflict protection, PostgreSQL relational data management, and Cloudinary-powered gallery uploads.

- Built responsive customer and administrative interfaces for service discovery, booking requests, gallery content, booking management, and event scheduling across desktop and mobile devices.

Venom-Sprint - JavaScript Browser Game

JavaScript | HTML5 | CSS3 | Canvas API | localStorage | GitHub

- Built an interactive Snake game in vanilla JavaScript using the HTML Canvas API for real-time browser rendering.
- Implemented a continuous game loop with directional controls, snake growth, randomized food placement, wall and self-collision detection, and progressively increasing game speed.
- Developed player controls for starting, pausing, resuming, restarting, and manually ending gameplay while preventing invalid reverse-direction movement.
- Added score tracking and persistent high scores using browser localStorage, along with an instructional help interface.

EDUCATION & TRAINING

Software Engineering Immersive - General Assembly

Remote | 2025

- Completed a 480+ hour immersive full-stack software engineering program focused on JavaScript, React, Node.js, Express, APIs, databases, Git/GitHub, Agile development, and collaborative software delivery.
- Built full-stack applications through individual and team-based projects while applying REST API design, authentication, CRUD workflows, responsive UI development, debugging, and version-control practices.

PROFESSIONAL EXPERIENCE

Pharmacy Technician - Panama Pharmacy

Jacksonville, FL | Aug 2018 - May 2025

- Managed high-volume prescription, inventory, insurance, and patient-service workflows requiring accuracy, organization, and careful handling of sensitive information.
- Trained and onboarded employees on pharmacy systems, operational procedures, and customer-service practices while supporting efficient day-to-day workflows.

Pharmacy Technician - Sam's Club Pharmacy

Jacksonville, FL | Jun 2015 - Aug 2018

- Processed prescriptions, resolved insurance and billing issues, maintained regulated documentation, and supported customers in a fast-paced retail pharmacy environment.

Pharmacy Technician - Publix Pharmacy

Jacksonville, FL | Oct 2011 - Jun 2015

- Supported prescription processing, pharmacy data entry, inventory management, audits, customer service, and regulatory compliance.

CERTIFICATION

Registered Pharmacy Technician - Florida Board of Pharmacy
